

CAREER DESTINATIONS SUMMARY

2019

2019 Career Destinations

Each year Career, Internship & Student Employment Services at Montana State University conducts a survey to determine placement rates and salary survey information from recent MSU graduates (Summer 2018, Fall 2018, and Spring 2019). Graduates were requested to participate in the survey to provide relevant information regarding the transition from college to career/graduate school. The contents of this document reflect the information gleaned from that effort, demonstrating “life after university” with regard to employment, graduate school, salary, location, etc.

There were 3,002 graduates and 1,248 respondents (41.6% response rate).

- 64.4% (n=794) indicated they were employed full-time in their field.
- 14.4% (n=178) indicated they were employed full-time not in their field.
- 11.8% (n=145) indicated they were employed part-time.
- 4.9% (n=60) indicated they were not employed and not seeking employment.
- 4.5% (n=56) indicated they were not employed, but seeking employment.

n= total number of respondents reporting salary

* Not all respondents answered all questions. Statistics, therefore, are not always based upon response of the total sample group.

Some line items do not total 100% due to respondents indicating they are not currently seeking employment or due to rounding of significant digits.

**5 year master's programs are reported both in Bachelor and Master's sections.

*** I.D. = Insufficient Data due to small graduate population or limited response rate.

**** Some graduates received two or more degrees and are repeated in the college summary under all degrees received.

2019 Career Destinations Highlights - All Colleges

How Graduates Found Their Jobs

- 29.2%** Internet
