

Gardening in Montana Course

5 Week Course
March 18th - April 15th
Wednesdays: 9am-12pm and 1pm-4pm
Heron Community Center, Bldg.#2

Course Fee of \$125 for the Gardening Handbook, Speaker Travel, Resources and Supplies

This Course will include class presentations and hands on activities with guest speakers from subject specific experts. Participants can become certified as a **Montana Master Gardener** after completing class sessions, passing an open book content test and completing 20 hours of volunteer service. It is not required to become a Master Gardener in order to take the course.

Course content will include:

Plant biology, soils and fertility, vegetables and fruits, ornamental plants, trees, shrubs, pruning, climate, lawns, landscape design, composting, and pest management.
