

Goodbye PDF templates, hello SciENCv

Are you ready for updated NIH & NSF
Compliance?

Tracy Gatlin, Assistant Director, Office of Research Development
September 12, 2022

SciENcv

What is it?

A federal system under the National Library of Medicine for the purpose of assembling professional information required by sponsoring agencies.

What is changing?

In response to NSPM-33, and the [NSPM-33 Implementation Guidelines](#), changes are taking place to standardize disclosure requirements and provide certification.

How does this effect MSU?

Changes in proposal and Just-in-time documents and requirements.

What SciENCv does:

- Reduces the need to repeatedly enter information.
- Reduces the administrative burden for the sponsor and reviewers.
- Provides access to data repository information
- Allows researchers to input their scientific contributions.

Background

Who Developed SciENcv?

SciENcv is a cooperative project requested by the [Federal Demonstration Partnership](#) (FDP), and federal agencies.

SciENcv was built by the [National Center for Biotechnology Information](#) (NCBI)

Input from DoD, DoE, EPA, NIH, NSF, The Smithsonian, and USDA.

Current Functions

NSF

- SciENcv is one of **two** options for both Biosketch & Current and Pending.

(Other option is PDF template)

NIH

- SciENcv available to create Biosketch.
- Also includes Fellowship Biosketch

IES

- SciENcv available to create Biosketch.

Updated Functions

NSF

SciENCv will be **MANDATORY** for both Biographical Sketch & Current and Pending effective **January 1, 2023**.

New NSF awards will require an updated Current & Pending before an award is released (similar to the NIH Just-in-Time).

Recent PAPPG update webinar:

<https://nsfpolicyoutreach.com/resources/spr22-grants-conf-propaward/>

NIH

- SciENCv available to create Biographical sketch documents.
- *Anticipated* SciENCv template for NIH Other Support soon.

Edit Mini Profile

This profile is a quick way to tell people who you are. It will be treated as public information and may also appear in other places.

Required Information

First Name: * * required field

Last Name: *

Name displayed as:
Add credentials, if desired. E.g., Jack Doe, PhD

Title / Department:

Institution / Company:

Optional Information

ORCID ID: [Add your ORCID ID to this profile?](#)

NSF ID:

- SciENcv highly recommends connecting to your ORCID and NSF ID numbers.
- Your ORCID data will be available to select into your documents.
- <https://orcid.org/>

Digital Persistent Identifiers (DPI)

- DPIs are long term references to a digital resource (example: DOI for publications, even if the URL changes the DOI does not)
- ORCID is another example of DPI and is specific to a person.
- Resolve ambiguity for individuals with same, similar, or multiple names
- Increased use as a result of NSPM-33

Creating New Documents

Use identifiers in document name that are helpful for future adaptations.

Options:

- Blank
- Start from another document previously created
- Pull in data from another source (e.g.; eRA Commons)

Current and Pending Support Summary

PROJECT/PROPOSAL INFORMATION

Current and Pending Support includes all resources made available to an individual in support of and/or related to all of his/her research efforts, regardless of whether or not they have monetary value. [1] Information must be provided about all current and pending support, including this project, for ongoing projects, and for any proposals currently under consideration from whatever source [2], irrespective of whether such support is provided through the proposing organization or is provided directly to the individual. This includes, for example, Federal, State, local, foreign, public or private foundations, nonprofit organizations, industrial or other commercial organizations, or internal funds allocated toward specific projects. Concurrent submission of a proposal to other organizations will not prejudice its review by NSF, if disclosed.[2]

[1]If the time commitment or dollar value is not readily ascertainable, reasonable estimates should be provided.

[2]The Biological Sciences Directorate exception to this policy is delineated in PAPPG Chapter II.D.2.

IN-KIND CONTRIBUTION INFORMATION

Current and Pending Support also includes in-kind contributions (such as office/laboratory space, equipment, supplies, employees, students). If the in-kind contributions are intended for use on the project being proposed to NSF, the information must be included as part of the Facilities, Equipment and Other Resources section of the proposal and need not be replicated in the individual's Current and Pending Support submission. In-kind contributions not intended for use on the project/proposal being proposed that have associated time obligations must be reported below. If the time commitment or dollar value is not readily ascertainable, reasonable estimates should be provided.

Add a delegate

Enter your delegate's email address:

[OK](#) [Cancel](#)

What'll happen:

- Your delegate will receive an e-mail notifying them of access.
- Your delegate will click a link in the e-mail to activate access.
- If your delegate does not have a My NCBI account, they will be invited to register.

Delegates can create, modify or delete the information in the SciENCv account to which they have been granted access.

Delegates cannot download NSF Current & Pending.

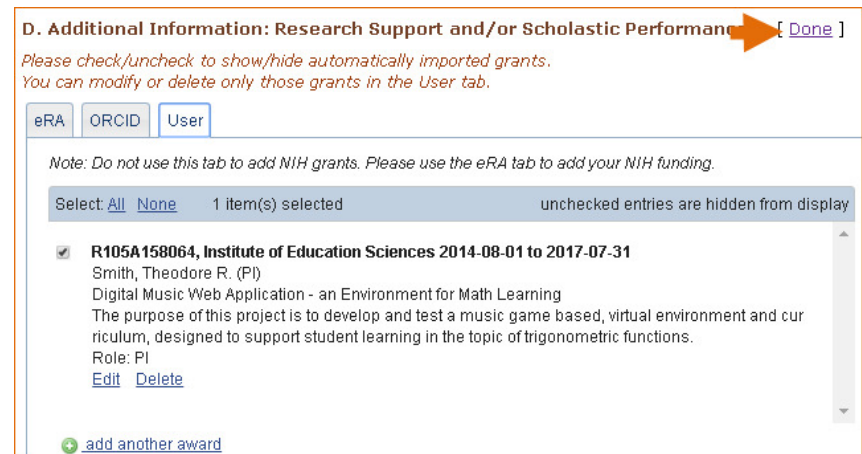

Certification & Signatures

- NSF uses SciENCv and the metadata within the downloaded PDF as certification by the PI.
 - Only the PI can download the C&P, not a delegate!
- Until an NIH Other Support is available in SciENCv, NIH requires a “flattened” PDF with an Electronic signature (Adobe or DocuSign only!) for PI certification.

What may be coming?

- Prior NIH Biosketch Section D (now removed)
 - if you linked your ORCID to My NCBI, your SciENcv profile had research awards available for import from either ORCID or eRA Commons.

Similar functionality could be used in the anticipated Other Support.

D. Additional Information: Research Support and/or Scholastic Performance [Done]

Please check/uncheck to show/hide automatically imported grants.
You can modify or delete only those grants in the User tab.

Step 1: Complete an NSF-approved format file for Biographical Sketch

[Biographical Sketch\(es\) \(PAPPG\)](#)

- Users must submit Biographical Sketch documents in an NSF-approved format, such as [SciENCv](#). A list of approved formats and policy guidance are available at the [NSF-Approved Formats for Biographical Sketch](#) policy page.
- File cannot exceed three pages
- Collaborators and other affiliations should not be included in the Biographical Sketch, as it is now provided as a Single Copy Document for each individual identified as senior personnel

Step 2: Upload the completed NSF-approved format file for Biographical Sketch

- Only one file can be uploaded
- Your file should **not** contain page numbers, as they will be added automatically by the system
- Accepted file types include: PDF
- Maximum file size permitted is 10 MB
